Dear Members:

With manpower short CMS has been playing a multitude of games and using intimidation to get some of you to work off of your assignments. I've heard many complaints of CMS telling our members that they have no choice when calling them off of their assignments. They've even when as far as telling some people that there is a "New Agreement" in effect that permits them to do so. I assure you that there is **NO NEW AGREEMENT!** These are lies! I want to set the record straight when it comes to when you are required to take a call and when you not. Of course the easiest way is not to answer the phone if you not first out. Let CMS leave a VMX and try to check the computer if available. You have 30 minutes to accept call once initiated. They must also call all of your listed numbers at least 2 times. I've attached the vacancy procedures for every engineer board in Salem, IL. There are only a couple of instances where you must accept call.

1. Currently if you are on a pool turn and a dog catching job is needed they can call you on your turn if no extra men available. They will first call you to step up to work the makeup pool. Please do not buy into this tactic. Tell them "no" or "that you are not required to step up and accept call" and let them exhaust the vacancy procedure. By doing this and forcing CMS to use you on "your turn" you will be paid two trip rates for the service rather than a basic day by stepping up.
2. DEW status. DEW stands for Desires Extra Work. If you open up CMTS and look under reporting's there is a "Request Extra Work" function. If by chance you have used this function then depending on the vacancy procedure you may be required to accept call off your assignment.

The attached Vacancy Procedures are BLET/UPRR negotiated. They derive from current agreements and are the blueprint that callers and managers are to use to fill vacancies. These come directly out of the CMTS system.

In the attached vacancy procedure enclosures you will see the board the procedure applies to in **bold**. Each **rule** is a step the caller must take in attempt to fill the vacancy. If unable to fill with first rule then they move on to the next rule and so on.....

In almost every instance you are not required to accept call unless you're first out on your own pool, with the exception of requesting extra work.

The next instance you answer your phone and are faced with this situation advise the caller that you are familiar with the vacancy procedure and politely tell them that "you are not required to accept call" and hang up.

If they place you in a refusal status let me or a Vice Chairman know so that we can contact St. Louis and have the status removed.

In Solidarity,

A handwritten signature in black ink, appearing to read 'Chaderick Black', written in a cursive style.

Chaderick Black  
Local Chairman
